

## // Experience

### Code/Design Intern | June 2016-Present National Public Radio

The visuals team at NPR is the core of the photography, daily graphics and data applications of the organization. The team also works to produce open source tools used throughout NPR's member stations and beyond.

- Produced quick, accurate breaking news graphics to accompany reporter coverage
- Collect and analyze data for visualization
- Collaborate on interactive news graphics and applications
- Detailed best practices to explain the clean, easy-to-read code for open sourcing.

### Digital Editor | May 2016-June 2016

New York Times Student Journalism Institute, NYC  
The NYTSJI is a two-week program for student journalists in NABJ and NAHJ. Students work alongside NYT reporters and editors to produce a working newsroom.

- Managed web content, added custom page layouts and worked on theme template for NYC16.nytimes-institute.com.
- Produced data visualization to accompany featured articles.

### Project Manager | Jan. 2016-May 2016

Undercurrent, Chapel Hill, NC

Undercurrent is an interactive documentary project showing the intersection of the culture and environment of Bocas del Toro.

- Oversaw the production and content collection of the site, Undercurrent360.com.
- Corresponded with the videographers, reporters, developers, designers and coaches for a cohesive workflow.
- Worked with a designer to develop an interactive graphic for the story "A Sea for My Children."

### Part Time Web Designer | Jan 2015-May 2016 Swarm Interactive, Chapel Hill, NC

Swarm Interactive specializes in medical motion graphics and website development.

- Maintains hundreds of practice websites.
- Builds clean, professional, custom-designed and fully responsive sites using WordPress and Joomla.
